AT NORTH PARK-TODAY

NOT MUCH IS DONE

In the Weekly Meeting of the Aldermen

PETITIONS FOR STREET FAVORS

Were Received and Divers Recommendations Were Adopted—Routine of the Listless Proceedings.

The common council meeting last night was devoid of any special interest. All of the aldermen were present, with the exception of Alderman Dunton who is sick. The principal topic of conversation among the city dais prior to the meeting being called to order was the pending political situation.

A remonstrance was received, signed by C. H. Van Oden and thirty-four others, protesting against the granting of the petition by the Consolidated Street Railway company asking for a franchise in Madison avenue, beginning at Hall street and extending to the D. L. & N. tracks. Those remonstrating said that they were willing that the franchise should be granted, providing the company lay track and operate cars to Burton avenue. Lake avenue residents asked the council to take the necessary steps looking to the condemnation of the Lake toll road within the city limits. Referred to committee on ways and means.

Property owners on Wealthy avenue remonstrated against the construction of a sewer, 266 feet in length, in that thoroughfare, beginning at Full street and extending west. Referred to the board of public works and aldermen of the third and tenth wards. North Division street residents remonstrated against the paving of that street until a sewer had been constructed therein. Henry street residents, south of Fifth avenue, petitioned for the grading and gravelling of that thoroughfare.

Have Changed Their Minds.

The Consolidated Street Railway company sent in a petition in which it said that at a previous meeting it had asked that the ordinance under which it was operating be amended so that it could operate street cars in Ottawa street from Bridge to Lyon and in Madison avenue from Hall street to the D. L. & N. tracks. In connection therewith the petitioner suggested another amendment. Section 4 of the present ordinance provides that the city shall not pave or lay a foundation for paving, nor shall said railway company be required to pave or lay a foundation which will interfere with laying rails, wires or making repairs. In reference to this clause the street car company now expresses the opinion that no inconvenience is experienced in operating cars in those streets where concrete and asphalt have been laid between the rails and asks that an amendment be made to the effect that concrete foundations be laid from curb to curb.

To Condemn Riparian Rights.

The mayor submitted a message in which he recommended that the necessary preliminary legal steps be taken toward instituting condemnatory proceedings against those riparian owners who refuse to give the city releases of that portion of the river front required for the construction of the dock-line. The message recited the history of the project since its first inception. On motion of Alderman Turner the council voted in favor of instituting proceedings at once. The board of health reported fourteen milk houses and recommended that they be issued to those making application.

The city engineer, in accordance with the instructions contained in a resolution adopted at a previous meeting, submitted a map of distance which he had drawn for use in hacks, in compliance with the ordinance recently adopted. The map was referred to the committee on ordinances.

Injured His Horse.

In regard to a remonstrance made by Oak street residents against the paving of that street with cedar blocks, the committee on streets reported in favor of the remonstrance. The committee on claims and accounts reported in favor of allowing the claim of L. A. Franklin of \$28.25. Mr. Franklin alleges to have driven his horse into a hole on South Division street injuring it badly, and holds the city responsible for the existence of the hole. The committee could not ascertain who was responsible so recommended that the city pay the damages. Alderman Hauser thought the committee had been guilty of gross neglect in not finding out who was liable. On motion of Alderman Turner the report was referred back to the committee with instructions to investigate.

The committee on ways and means recommended that the city cemeteries be furnished water free of charge. The committee on sewers, which investigated the communication of T. D. Gilbert in regard to the filthy condition of the creek or open sewer which runs through the Gas company's plant, reported that the condition of the creek was even worse than described and recommended that a sewer be built from Grandville avenue to the river.

The comptroller reported claims amounting to \$4041.51, which were ordered paid.

The committee on streets recommended that on Lyon street, east of Division, the roadway be widened and that the street be paved with asphalt on a concrete foundation.

Didn't Kill the Bull.

The special committee on the State street paving roll recommended that the roll be paid for further appeals. Alderman Tatum asked that the present roll be destroyed and a new roll made. Alderman Frost wanted the roll destroyed and a new one made, because there was some property that escaped assessment which should be assessed. A. E. Warden, representing the property owners, addressed the council in regard to the injustice inflicted by the present roll and urged that the council not ratify the roll. Alderman Saunders and Alderman Turner held that if the council voted to assess for improvements according to the foot frontage alone that all the rolls satisfied by the council in the past

would be invalidated. The question of ordering a new roll was voted down. There were several appeals. On motion of Alderman Stein these were referred to the committee having the matter in charge and further consideration was postponed until the next session of the council.

On motion of Alderman Saunders the city clerk was instructed to notify all inspectors and clerks of elections to meet with the councilmen next Thursday evening for the purpose of receiving instructions in regard to counting ballots, etc.

Joke on Alderman Tatum.

Alderman Tatum made a sneak without asking the chair if he could be excused. By his request Alderman O'Donnell passed in a resolution, asking that an estimate be made for the paving of Madison avenue with street asphalt from Washington street to State street. Alderman Saunders moved that if Alderman Tatum had any business he could stay and attend to it. Later Alderman Saunders moved that the resolution be taken from the table, explaining that he understood that the alderman wished to do something further. The resolution was taken from the table. Alderman Mills moved to amend by striking out State street and inserting Wealthy avenue. The amendment was adopted, as was also the resolution as amended, without a dissenting voice.

Council adjourned until next Tuesday evening.
